PRICE LIST

OF SELECT STRAWBERRY PLANTS

Dear Friend:

Once again we are issuing the simplest kind of price list for our plants. Due to adverse growing conditions and an acute labor shortage our supply is limited. The plants are large and vigorous and will reach you in good condition.

= 19145

We are offering only a few varieties. IN ORDER TO DISTRIBUTE THEM EVENLY AMONG OUR CUSTOMERS, WE FIND IT NECESSARY TO LIMIT EACH ONE TO 2000 PREMIER AND BLAKEMORE AND 1000 CATSKILL. OTHER VARIETIES ONLY IN QUANTITIES LISTED. Remit by check or bank draft and give plain shipping directions. Express is the best and cheapest except in small quantities.

Prices listed below are at Franklin, Virginia, receiver to pay charges. If you wish them by parcel post, just send order and we will attach C.O.D. claim for the postage we pay on it.

LIST OF VARIETIES

DORSETT: The plants grow vigorously but do not often get too thick. The berries are a full red with green cap, fine size and uniform shape. In productivity it will not quite equal Premier or Catskill but it bears well. Ripens about same time as Premier.

FAIRFAX: A vigorous grower and quite productive of fancy berries. It is apt to turn dark quite soon after picking but this does not mean that it is spoiled. Its ripening season is same as Premier. Unquestionably the best for home garden and near market.

BLAKEMORE: A fine shipping berry. Must be kept thin for nice crop. We do not recommend it for northern areas.

PREMIER: An early berry without a peer to grow, to stand frost, to produce, and to sell in all markets. Our stock is very clean and healthy.

CATSKILL: A vigorous grower with berries of fine size, color and shape. We recommend it as best midseason variety.

PATHFINDER: Midseason variety, quite productive. Recommended for the north. A good plant maker.

REDSTAR: Very late. Makes a good fruiting bed. Sets a heavy crop. Best on moist land.

MIDLAND: Ripens about the same time as Premier. Good plant maker and fairly productive. Worthy of trial.
